

CONNECTING

PRODUCT, TECHNOLOGY & PEOPLE

Enjay Global Industries

Our Vision

To be the global leader and most trusted partner in the energy and industrial sectors, setting the international standard for reliability, service excellence, and engineering innovation. We will be the indispensable provider that connects clients to the comprehensive solutions that power their success.

Our Mission

Our mission is to empower our clients in the energy and industrial sectors by effectively Connecting Product, Technology, and People. We are committed to delivering superior-quality equipment, innovative engineering, and responsive, expert service that ensure operational safety, reliability, and unparalleled value for our partners.

Connecting Product

We deliver a comprehensive range of reliable, mission-critical equipment, including rental solutions, to keep your operations running.

Connecting Technology

We leverage advanced fabrication, laser cladding, and modern engineering to solve complex challenges and ensure compliance.

Connecting People

We provide expert field services, inspections, and dedicated support, acting as a true extension of your team.

ABOUT US

What we do

Enjay Global Industries is a prominent manufacturing and service facility based in Dammam, Saudi Arabia. Serving the oil, gas, and power sectors, the company specializes in producing a wide range of highly engineered equipment, including drilling tools, OCTG, pressure control equipment, valves, and instrumentation fittings.

Our Quality & Compliance Commitment

At Enjay Global Industries, quality is the central principle that connects every aspect of our business. Our motto—Connecting Product, Technology, and People—is built on a foundation of uncompromised quality, validated by the industry's most respected certifications. We are committed to a culture of continuous improvement and manufacturing excellence, which is demonstrated by our:

■ ISO 9001:2015

Our Quality Management System is certified, ensuring consistent, high-quality processes from design to delivery.

■ ISO 14001:2015

Our organization manage its environmental responsibilities in a systematic way that contributes to environmental sustainability.

■ ISO 45001:2018

Our framework for managing risks and improving performance related to the health and safety of people at work.

Our commitment is to deliver products and services that are not just compliant, but set the standard for safety, reliability, and operational excellence.

Our Products

As a prominent manufacturing and service facility, we specialize in producing a wide range of highly engineered equipment for the oil, gas, and power sectors. Our offerings are built to the highest international standards, from certified ASME pressure vessels and DNV containers to complete upstream packages and drilling equipment.

DRILLING RIGS ASSOCIATED EQUIPMENT

Manufacturing, inspection, and recertification of rig structures, masts, mud systems, and tanks

ASME & DNV FABRICATION

Certified ASME U Stamp pressure vessels and DNV offshore containers, baskets, and skids.

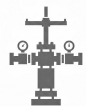

HEATERS, PLANT & ROTATING EQUIPMENT

Supply, service, and manufacturing of industrial heaters, pumps, compressors, turbines, and valves.

FABRICATION & CLADDING SERVICES

Expert fabrication of skids, manifolds, piping, and bit breakers, plus advanced laser cladding.

UPSTREAM PACKAGES

Turnkey UBD, MPD, well testing, EPF, and slickline/wireline packages.

WATER TREATMENT SYSTEM

Advanced water desalination, demineralization, filtration, and offshore wastewater treatment systems.

Our Services

We are your dedicated, long-term partner for the entire asset lifecycle. Our expert field and technical services are designed to maximize your operational uptime, ensure the highest standards of safety, and protect your investment.

Inspection & Testing

- * Advanced NDT & PWHT services for asset integrity.
- * API CAT 3 & CAT 4 drilling rig inspections, including repair and recertification.

Repair & Recertification

- * ASME 'R' Stamp certified repair for pressure vessels and power boilers.
- * Full onsite inspection, repair, and recertification to minimize downtime.

Field & Commissioning Services

- * Full equipment installation and commissioning for operational readiness.
- * Onsite fabrication upgrades and modifications.

Rotating Equipment Services

- * Expert service and overhauling for all types of pumps, compressors, and steam turbines.

Rental Offerings

Access our comprehensive inventory of mission-critical equipment for your next project. We provide fully inspected and certified assets to ensure safety, compliance, and operational readiness from day one.

Offshore Rental Units

Offshore Baskets | Offshore Skids | Offshore Containers

Pressure & Flow Control

Choke & Kill Manifolds | Pressure Control Equipment | Hub Iron Rental Flowlines, Hoses & Loops | Valves

Complete Rental Packages

Well Test Packages | Slick Line Units

Instrumentation & Support

Pumps | Flow Meters | Data Logging Equipment | Transducers
